

Placement Requirements

- ☐ Level installation surface.
- ☐ Machine must be level.
- ☐ Counter area able to accommodate the machine's footprint.

Water Treatment

- ☐ Sediment filtration.
- ☐ Chlorine filtration.
- ☐ Water lines flushed prior to being connected to the machine.

Water Supply

- ☐ 1/4" flare water connection. (1/4" flare male fitting included)
- ☐ Dedicated supply line to the machine from the wall.
- ☐ Dedicated water shut off valve within close proximity to the machine.
- ☐ Dynamic water pressure between 20-90psi, above 90psi install a pressure reducer to 50psi.
- ☐ Water supply from the location's cold water circuit.
- ☐ No leaks at any connection point.

Electrical Supply

- ☐ Dedicate 15AMP circuit breaker with 15AMP rated receptacle.
- ☐ For 120/208VAC or 120/240VAC: dedicated 20AMP circuit breaker with 20AMP rated receptacle and plug.
- ☐ Power cord routed and secured with no stress or wear points.
- ☐ Power cord plugged completely into the receptacle.
