

SmartWAVE® Brewer Repair Checklist

The following steps should be followed after performing any repair on the SmartWAVE® Brewer. Upon completing a step mark it off as being completed this will allow you to keep track of which steps you have completed. While completing the checklist if you notice something is not correct please correct the item before leaving the location.

- ☐ Inspect the power cord for any wear or damage.
- ☐ Inspect all water lines and fittings for leaks, corrosion, or mineral build-up that may indicate a leak.
- ☐ Use a delimeing spring to clean the sprayhead tube.
- ☐ Use a deliming tool to clean the sprayhead.
- ☐ Ensure the sprayhead is in place.
- ☐ Clean any coffee residue from around and above the sprayhead.
- ☐ Clean any coffee residue or scale build-up from sprayheads.
- ☐ Ensure the faucet seat cup is not leaking.
