AutoPOD TEMPLATE FOR POD BIN CUT-OUT

GENERAL

The purpose of this instruction sheet is to provide a template for cutting a hole through the Brew Station and/or the counter top where the Brewer will be placed, to allow the used coffee pods to be ejected into a waste bin below the counter.

INSTRUCTIONS

1. Determine exact location the AutoPOD Brewer is to be placed.
2. Unfold this sheet and position on Brew Station or counter top where the Brewer will be placed.
3. Tape the template in position and cut hole along the dotted lines.
4. Remove the drip tray and bin assemblies from brewer.
5. Turn the assemblies upside down on table and cut out bottom squares as shown.
6. Place brewer over the new hole in counter top and install assemblies back into brewer.
7. Enter program mode and scroll to: "BREWS TO EMPTY". Press and release either the "+" or "-" until display reads "DISABLED". Exit program mode. Installation is complete.
