

# Dual SH BrewWISE® Repair Checklist

The following steps should be followed after performing any repair on the Dual SH BrewWISE®. Upon completing a step mark it off as being completed this will allow you to keep track of which steps you have completed. While completing the checklist if you notice something is not correct please correct the item before leaving the location.

- ☐ Inspect the power cord for any wear or damage.
- ☐ Inspect all water lines and fittings for leaks, corrosion, or mineral build-up that may indicate a leak.
- ☐ Ensure sprayhead(s) are in place.
- ☐ Ensure all servers are heating.
- ☐ Replace any leaking faucet seat cups.
- ☐ Ensure that funnel handles and tips are in place and secure.
- ☐ Clean any coffee residue or scale build-up from sprayheads.
- ☐ Calibrate the flow rates.
